The specialists for your unforgettable mountain adventure. Montafon-Guides Silvretta organise tours of traditional mountain terrain such as Piz Buin, Dreiländerspitze, Zima or Drusenfluh but also have extensive knowledge of mountain tours away from the usual routes.

- **Climbing**

Madrisa, Vallüla, Patteriol, Silvretthorn, all with a choice of ascents, are just a selection of the possibilities in Montafon and its neighbouring mountain chains. Climbing tours in the Rätikon, including well-known routes to Sulzfluh, Drusentürme or Kirchlispitzen promise great satisfaction. However, the climbing routes in Silvretta are lesser known and virtually deserted, many of them having been cleared or reconstructed in the last few years.

- **Hiking**

The Montafon-Guides Silvretta are also pleased to accompany hikers who want to venture further and higher up to the glaciated regions of Silvretta, where a whole spectrum of unique and extensive hiking trails opens up. A sundown hike to Zamangspitze is a special mountain experience, with the descent to Zamangalpe assisted by head lamps. From there, a taxi brings you back to the starting point.

- **Families, Children**

There is nothing better than a mountain hike with your children or to watch them attempting their first climb across rock. On the family adventure day you can introduce the kids to climbing and negotiate a climbing trail through a gorge in the far reaches of Montafon Valley, while your guide gives hands-on advice about safety in the mountains.

- **Canyoning**

You can enjoy hours of excitement and adventure with the guides in the gorges around Montafon.
